

New TVA Directors Meet at Brown's Ferry

New Tennessee Valley Authority board members attended their first meeting with the discussion of "incentive pay" on the agenda at the Browns Ferry Nuclear Plant. The November 4th meeting at Athens, Ala., is the first for three new directors appointed by President Barack Obama. The new directors restore the nine-member board to full strength.

The new members are Middle Tennessee State University professor Barbara Haskew; Georgia Tech professor Marilyn Brown; and Oak Ridge lawyer Neil McBride. Former TVA chairman Bill Sansom was reappointed.
